Re: Withdrawal of Revision of Ohio EPA SIP for Incorporation of Emissions from
Emissions Units Shut Down Prior to the 2005 Base Year SIP Inventories

Dear Director Czerniak:

I am writing to formally request withdrawal of the above referenced State implementation plan (SIP) revision request submitted to U.S. EPA on June 7, 2010. The SIP revision requested the incorporation of SO₂, NO_x, PM_{2.5} and VOC emission reduction credits (ERCs) from units that shut down prior to the 2005 base year that was used for demonstrating attainment with the 1997 ozone and PM_{2.5} standards and the 2006 PM_{2.5} standards. Since that time, Ohio EPA has attained these standards throughout the State of Ohio. Should Ohio wish to pursue pre-base year ERCs in the future, we will prepare a separate SIP revision based upon the newer standards in effect.

If you have any questions, please contact Jennifer Dines in the Division of Air Pollution Control at (614) 644-3696.

Sincerely,

Bob hodanbosi

Chief
